

FOR IMMEDIATE RELEASE

SUPPORTING THE ADVANCED CARE OF SPINAL CORD INJURIES IN THE MUSIC CITY

Byram Healthcare Will Be Among Industry Experts Attending ASCIP 2016

White Plains, NY – 17th August, 2016

Byram Healthcare is focused on achieving successful outcomes for those with spinal cord injuries. They will continue to do so along with upwards of 700 professionals when the Academy of Spinal Cord Injury Professionals (ASCIP) holds their annual conference.

ASCIP 2016 is being held in Nashville, Tennessee from Sunday, September 5th to Wednesday, September 7th. The Educational Conference focuses on cutting edge and innovative strategies to promote positive outcomes following spinal cord injuries or disabilities. As a leading national supplier of disposable medical equipment (DME), Byram Healthcare provides products and support to the thousands who suffer spine-related injuries every year.

Byram Healthcare Product Manager Christi Dabney Rauth said, “We [Byram Healthcare] are always excited to exhibit and support ASCIP. It’s an excellent opportunity to meet with clinicians treating those affected by spinal cord injuries. Our goal is to help our customers live their life to the fullest by providing the clinically appropriate urologic, wound, ostomy and incontinence supplies.”

ASCIP conference attendees include healthcare professionals from various specialties, all involved in the support and management of spinal cord injuries or disorders. According to their website, “The Academy of Spinal Cord Injury Professionals is an interdisciplinary organization dedicated to advancing the care of people with spinal cord injury/disorder.”

The conference provides an educational venue for furthering ASCIP’s mission. Rauth said, “As a trusted partner in healthcare, participating in events like ASCIP offers us [Byram Healthcare] the opportunity to learn about what clinicians are facing in treating their patients and how we can play a role in living well with a spinal cord injury.”

Byram Healthcare, a Mediq Direct Company, is headquartered in White Plains, New York and has locations across the United States. They have been a leader in disposable medical equipment delivery since being founded in 1968. Byram provides quality supplies, support and services, specializing in diabetes supplies, ostomy supplies, wound care supplies, urology supplies, incontinence supplies, and enteral nutrition. Byram is also a supplier of breast pumps, an insurance benefit of the Affordable Care Act.
